Juniors

This year has been filled to capacity with studies, fun, and excitement. As we look upward through the branches of this stately school tree, we find ourselves anticipating even greater adventure, more interesting studies, better leadership, and higher achievement.

We are practically there. It seems almost a sad occasion to leave our comfortable branch that has sheltered us for a year, but every junior is looking forward to inheriting the power and glory of the topmost part of the school tree—the senior year.

Activities

Just as the sun and rain provide nourishment and beauty to a tree, so our activities bring the sparkle of variation to our school life. The addition of club meetings, dances and parties make studies seem more interesting and school more worthwhile to attend.

Activities furnish many opportunities for those who are especially interested in certain fields. There is a chance for expression and enjoyment for everyone. Yes, activities temper the tree of school life and make it an experience never to be forgotten.

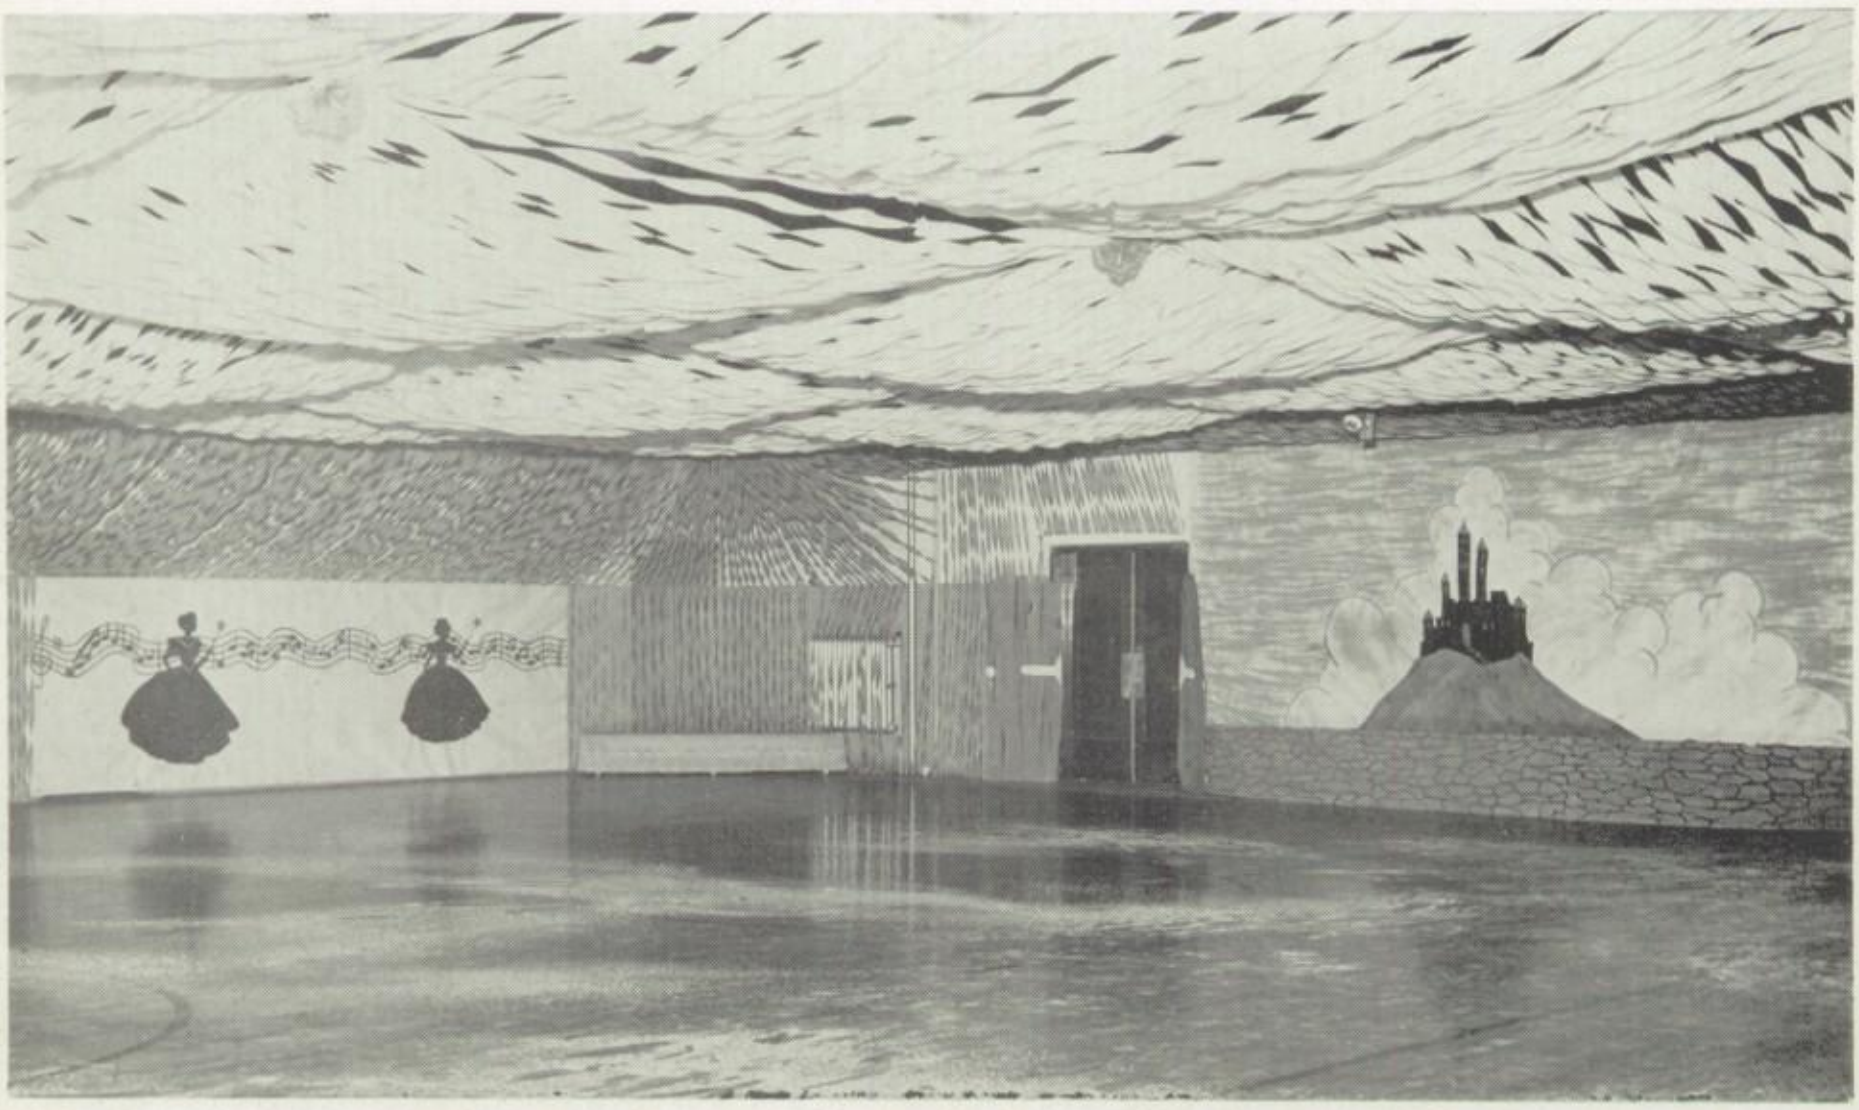
"Our Very Own"



November 22, 1950, will be remembered by the seniors as one of the most important events of their school days. A billowy ceiling with roses tucked here and there, magic music, lovely fairies, and an enchanted castle transformed the gym into a Magic Land the seniors will never forget.

Sports

Athletics are the functions which add the right finishing touch to school life. Just as the tree gets its added beauty and health from the sun, rain, and earth, so do sports add the thrill of competition and accomplishment to our memories of school days.

This year, 1950-51, has been an outstanding one in many ways, especially in athletics. The basketball team went very far to make new records. The football team also had an outstanding season, as did the track, tennis, and baseball teams.

Yes, 1950-51 has been a wonderful year, one which can be remembered with pleasure and pride.

About midnight -
after Galen's Party -

Dear Louise:

Today I have hardly touched earth - Ever Since Second Class and also after school - I think you have a pretty good idea why. It was last year at this time were (short for we were) talking about this same thing - Not too much has happened about our little "plans" but "its" coming around - (Just in case "Boyd" reads this again) - (did I hear you call me Mary Lou?) I'm glad you wrote in my book about not giving up because there for a while I really thought you had. I just about did but now I can go on for another year - maybe...

Speaking about last year - Remember those onions did you have any tonight? I did - you can't break tradition you know -

I think it's about time we were having another S.P. There are quite a few things we have to catch over. Remember our past ones? How could we forget - Those dill pickles I wrote about Last year - Those pine nuts at our most recent one - Those giggles at all of them. If anyone had of been watching, besides those kids (Lefton, Shirley etc.) at that one little gem. People wouldn't believe it was really us - But isn't that the way you and I usually are when we're together alone? You're really a nut - I love to get the giggles with you - I ought to cause we get plenty of practice. Did I say practice Remember Cheer Leading? At least Lolana, Bobby, Grant, Dick, + our folks appreciated us anyway. Oh well we got a new blouse + new shoes + now we're getting pedal pushers out of the deal. (not to mention our many broken bones + silly arguments.) I still don't, by the way, like how we did Fight Fight I think it should go... no - Good Bye Cruel World - Bang - I just hung myself. So I'll have to quit because I'm running out of room - Now I'll give you some advice - (Have you heard that before?) Here it is - Don't read this stupid page full of nothing - You can't even read my advice now Because of this one - - - - - - - - - -

I didn't have room at the bottom so I'll sign my name up here -

Pals always
